

NIHR Clinical Research Network Study Support Services

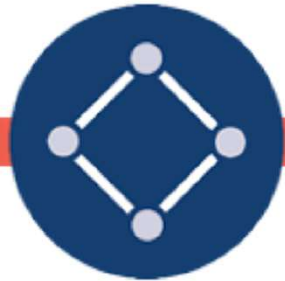

Karl Davison
Research Feasibility Facilitator

NIHR's mission is to improve the health and wealth of the nation through research.

Funding high quality, timely research that benefits the National Health Service, public health and social care

Investing in world class expertise, facilities and a skilled delivery workforce to translate discoveries into improved treatments and services

Partnering with patients, service users, carers and communities improving the relevance, quality and impact of our research

Attracting, training and supporting the best researchers to tackle complex health and social care challenges

Collaborating with other public funders, charities and industry to shape a cohesive and globally competitive research system

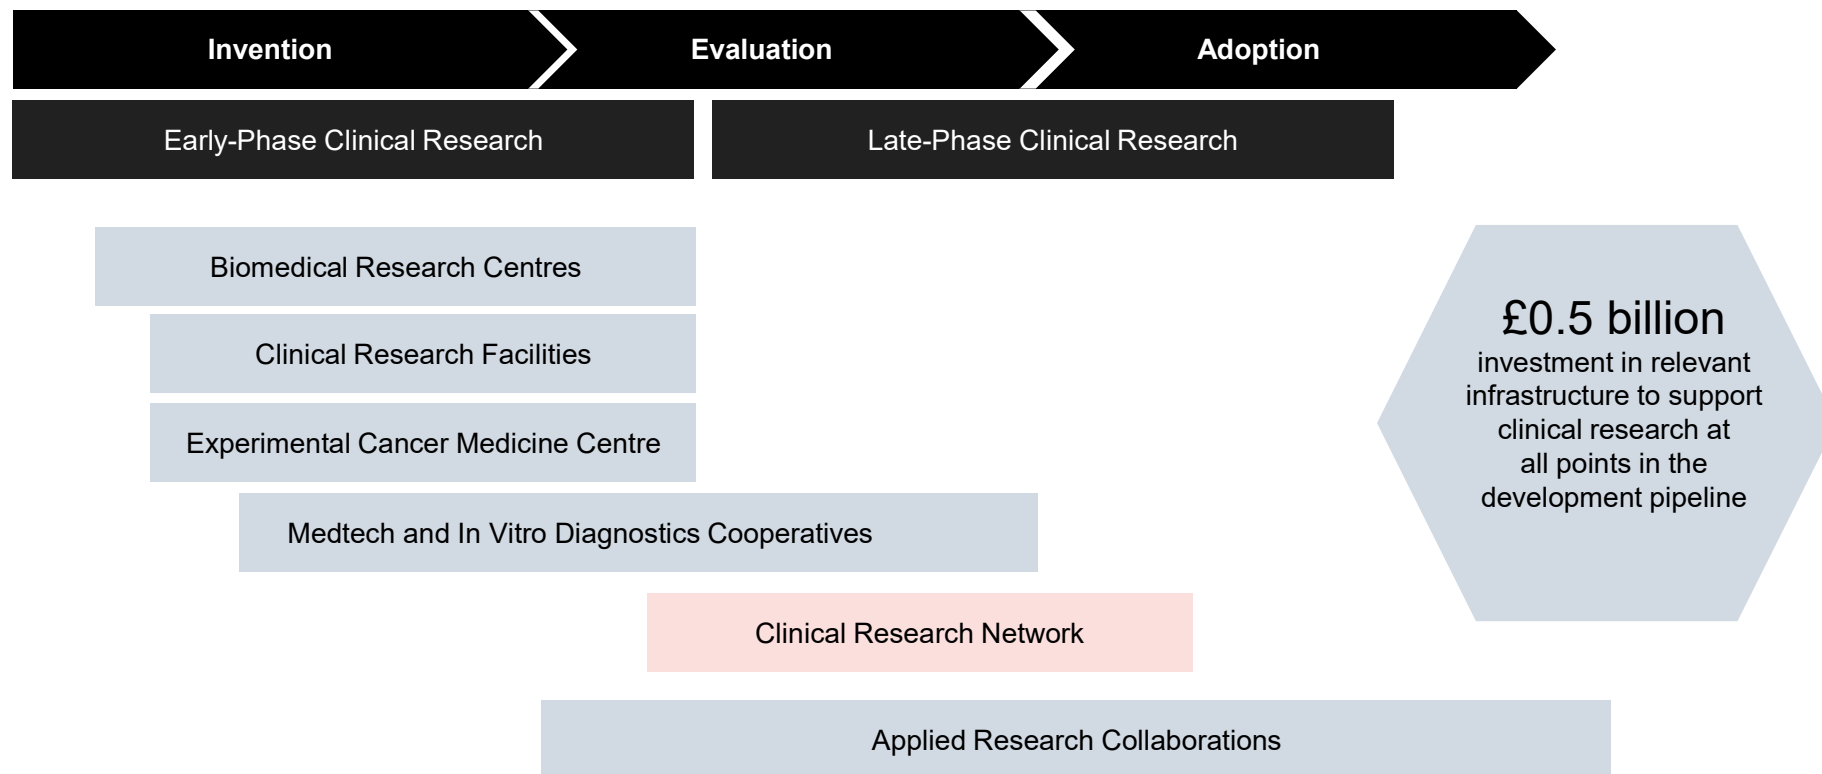

Funding applied global health research and training to meet the needs of the poorest people in low and middle income countries

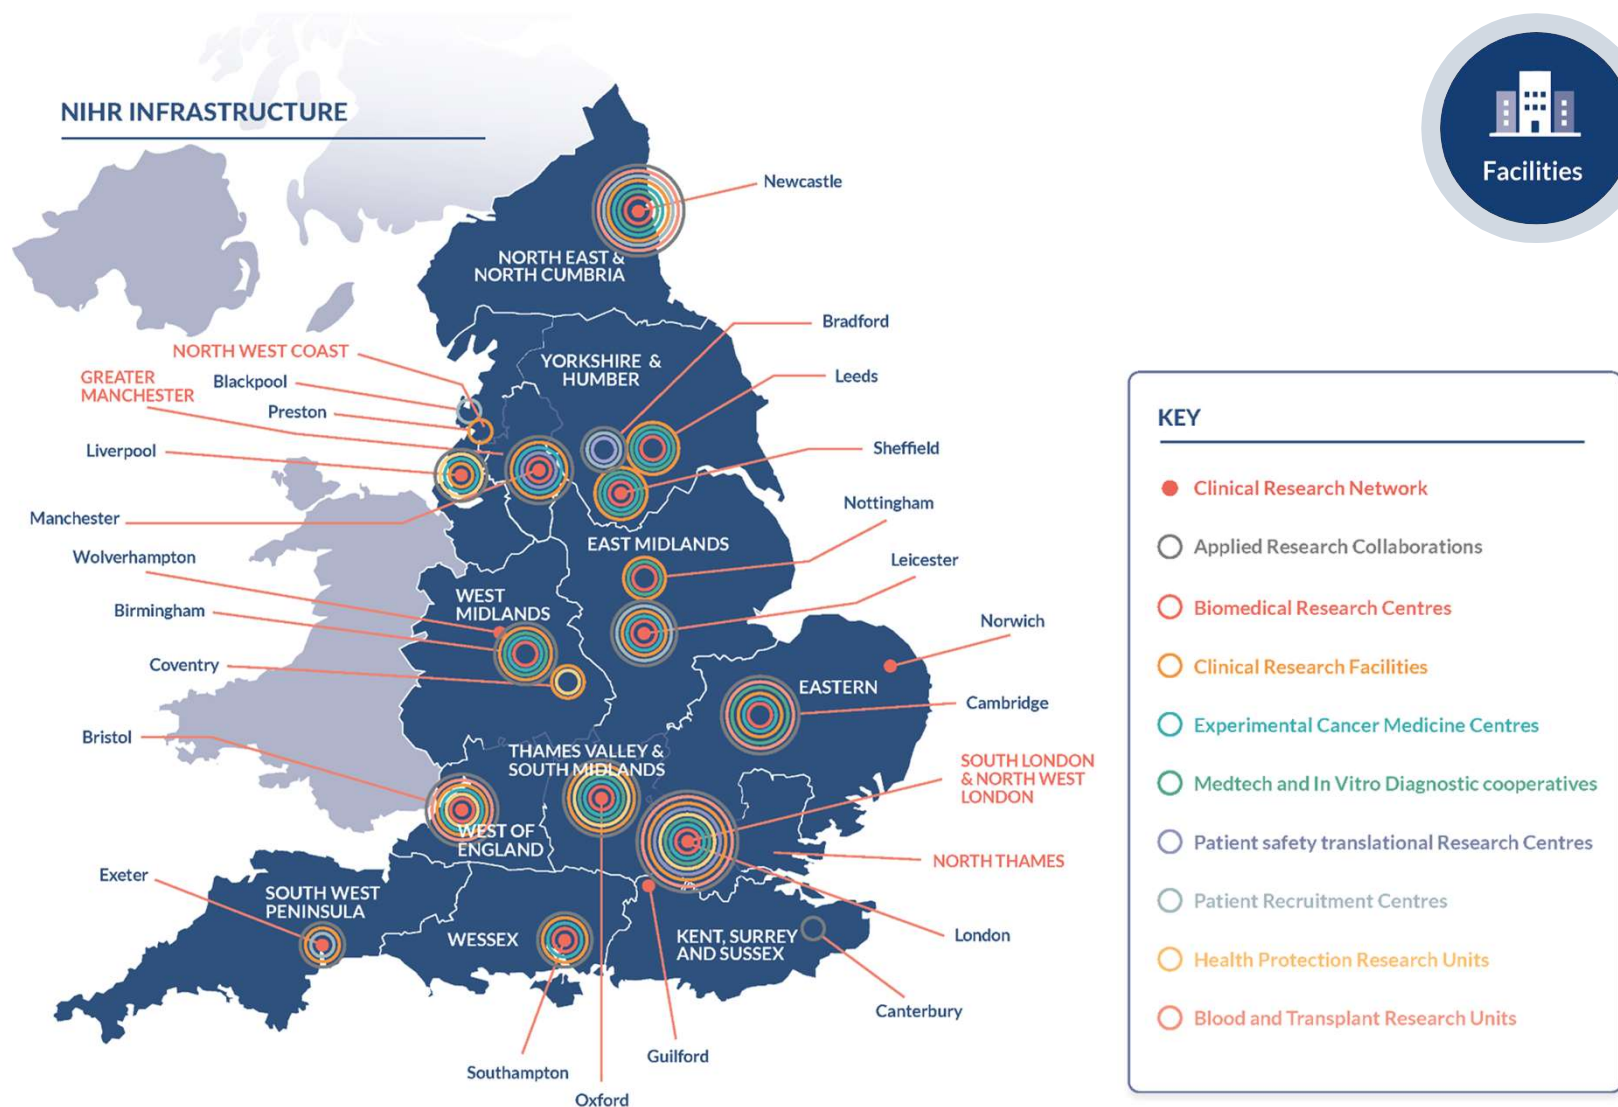

We support researchers and life science companies to translate their new therapeutics, medical devices, diagnostics and digital technologies into the clinic and then onto market.

Where the CRN fits in

World-class research infrastructure

Covering 30 Specialties

Each LCRN delivers research across 30 specialties:

Ageing
Anaesthesia, perioperative medicine and pain management
Cancer
Cardiovascular disease
Children
Critical care
Dementias and neurodegeneration
Dermatology
Diabetes
Ear, nose and throat
Gastroenterology
Genetics
Haematology
Health services and delivery research
Hepatology

Infectious diseases and microbiology
Mental health
Metabolic and endocrine disorders
Musculoskeletal disorders
Neurological disorders
Ophthalmology
Oral and dental health
Primary care
Public health
Renal disorders
Reproductive health and childbirth
Respiratory disorders
Stroke
Surgery
Trauma and emergency care

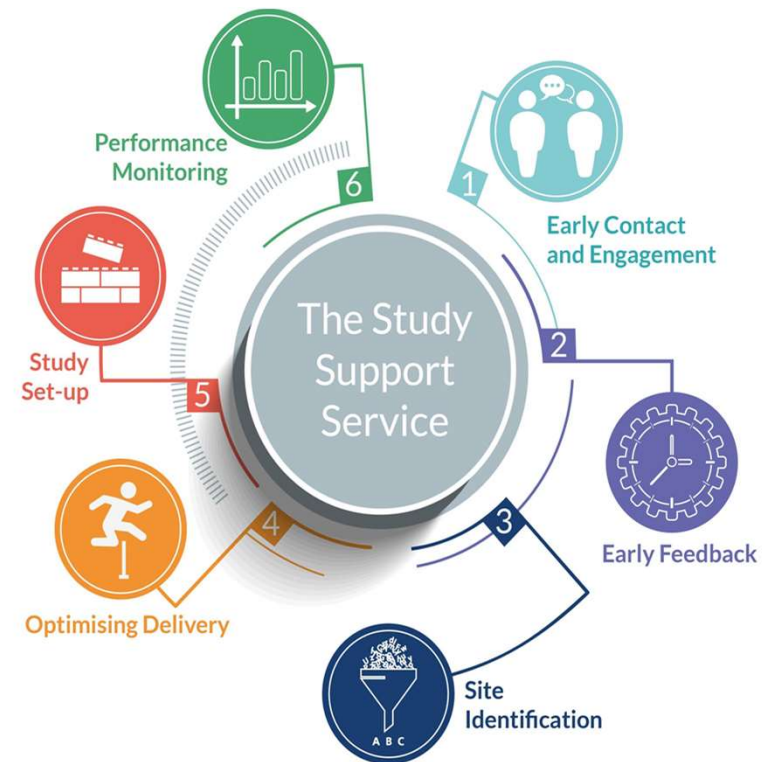

Study Support Service

Support Study Service

Plan: Access to expertise

Early contact and engagement

Engage with us from the outset and gain access to free support that provides benefits throughout the full life-cycle of your study.

Early feedback

A single submission provides you with access to NHS clinical experts across all therapeutic specialties. This helps you determine if your study can be delivered in the NHS.

Patient Engagement in Clinical Design Service

Facilitate direct dialogue and interaction with patients who can advise on the design and delivery of your research

Cost recovery service

Placement

Site ID

Our service enables you to gather expressions of interest from all 240+ NHS organisations and 10,000+ General Practices in England. All you need to do is complete a single submission form.

Optimising delivery

If you have not benefited from early engagement, we undertake an assessment to inform and enable the type of support you'll need. For example, this could relate to study support costs or onsite research professionals.

Support Study Service – Perform

Effective study set-up

Building on all previous interactions, we create and implement a study-wide action plan, detailing a single set of recommendations and key information for all study sites that enables a 'do once and share' approach.

Performance monitoring

Our data system provides unique access to study-wide recruitment data. When combined with the study specific review schedule, it enables a proactive approach for identifying and supporting struggling studies.

Costing tools

Researchers & Non-commercial partners

- NIHR Schedule of Events Cost Attribution Template (SoECAT)
 - Elements of study support costs are covered by NIHR funding

Commercial Trials

- Study Resource Review Service ((interactive costing tool (iCT))
 - Validated once and shared with all participating sites

Coming soon

- National Contract Value Review is underway
 - Site specific organisational costs will be available upfront prior to study negotiation commencing
 - Costs will be transparent

Research set-up and delivery stats

Size and scale

Financial year 2020/21: In total we supported:

The background of the infographic features a stylized illustration of a city skyline with two buildings, a tree, and clouds. A large purple magnifying glass is positioned over the "1366 commercial studies" text. A red ribbon is tied around the "485 sponsor companies" text. A blue magnifying glass is positioned over the "108 CROs" text. Various colored circles and dots are scattered throughout the scene.
